SUMMARY

Information Systems student at BYU building web projects with AI coding tools, including React, Supabase, and Vercel. Projects include athlete websites, an academic dashboard, and a browser game. IS 581 teaching assistant with experience automating workflows and supporting customers at a SaaS startup.

EDUCATION

Bachelor of Science in Information Systems Expected Apr 2028
Brigham Young University - Marriott School of Business | Provo, Utah | GPA: 3.62 | Association for Information Systems

EXPERIENCE

Business Development and Customer Success Mar 2026 - Oct 2026
EZsalt - SaaS startup

- Supported about 100 customer accounts through weekly check-ins, product questions, and technical troubleshooting to help customers keep using and renewing their plans.
- Coordinated customer training meetings and worked with customer success management to address concerns and reach solutions.
- Automated 75% of follow-up workflows in HubSpot, improving CRM consistency and cutting repetitive admin.
- Cut meeting prep from 5-10 minutes to 1-2 minutes with AI research and recap workflows, saving 1+ hour daily across a three-person sales team.
- Researched 300+ prospect accounts weekly with AI-assisted tools and generated an average of 2 meetings daily through calls, visits, and email sequences.

Teaching Assistant - IS 581: Managing a Software Startup Sep 2026 - Present
Brigham Young University - Marriott School of Business

- Review student projects, give feedback, and grade coursework on managing a software startup.
- Help develop a Software Startup Simulation that teaches validated learning through product, technical, marketing, and resource decisions.

SELECTED PROJECTS

Starrboard - Developer (public demo: github.com/Lotstarr/starrboard-demo) 2026
- AI-assisted command center for school deadlines, reading plans, and tasks. Developed a private app with API integrations and a separate public fictional demo using Next.js, React, and TypeScript; demo uses browser-local data.

Building Athlete Websites - Founder (tyholmstead.com) 2026
- Building recruiting websites for high-school athletes with stats, highlight film, schedules, and coach contact information.

Cougar Crossing - Developer (lotholmstead.com/projects/cougar-crossing/) 2026
- Built and deployed a BYU-themed browser game with a rendered field, keyboard and on-screen controls, and yard tracking. Uses Canvas and Socket.IO; multiplayer synchronization still needs testing.

Personal Portfolio Website - Developer (lotholmstead.com) 2026
- Designed, built, and deployed a responsive Astro site with GitHub Actions, GitHub Pages, a custom domain, and a contact form.

SKILLS

Development: React, JavaScript, TypeScript, Next.js, Supabase, Vercel, HTML, CSS, Python, SQL, GitHub, API integrations
AI tools: Codex, Google Antigravity, AI-assisted development, workflow automation
Customer and business: Customer training, technical troubleshooting, HubSpot, business process analysis, Excel, data analysis

LEADERSHIP AND SERVICE

Full-Time Missionary - The Church of Jesus Christ of Latter-day Saints, Philippines Aug 2022 - Aug 2024

- Learned Tagalog, trained and led other missionaries, and built cross-cultural communication, resilience, and self-direction.

CERTIFICATIONS

Professional Scrum Master I (PSM I) Oct 2026
